Padma Shri Prof. Ravi Kant, Director AIIMS said in his message that this program is an important step towards the diagnosis of problems related to the urogynecological and cosmetic-plastic and sexual issues diseases of women. Its objective is to make every woman of India aware of their problems and reach out to those women and get them health benefits from AIIMS Rishikesh Superspeciality Services. He said that since AIIMS institute is established in Uttarakhand, our first pledge is to extend the benefits of these health services to the women of the last village of the state.

In the program, Dr. Navneet Magon, Head of the Department of Reconstructive and Cosmetic Gynaecology, said that this is the first such campaign related to women's health. He inspired the participating women to reach every village in Uttarakhand to motivate the last woman to be concerned about health, who has been quietly suffering and living her life in every circumstance without ever thinking about her health. He called upon the women that in this campaign we have to talk to the women, who either do hesitate to talk about their problems or the society ignores the health issues of those women.
